Note on Citations in this Chronology

Citations appear at the end of each entry in the Long-Form Version of this *Chronology* (vols. 2-5) and refer to a variety of sources available to the Committees. These sources are noted in the corresponding entries in the Summary Version (vol. 1) only by the witness' name or by the document description or its exhibit number. The sources include:

1. JHICI. Refers to the unpublished transcripts, titled Joint Hearings on the Iran-Contra Investigation, that were issued daily to the Committees while the Iran-Contra Hearings were being held in May through August 1987. All page references given as "[Witness] Testim., JHICI" are to these volumes which are stored in the Committees' archives in Washington, D.C. These transcripts have recently been published by the Committees in a thirteen volume set titled *Iran-Contra Investigation: Joint Hearings Before the Senate Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition and the House Select Committee to Investigate Covert Arms Transactions with Iran*, 100th Cong., 1st Sess. (Washington, D.C.: U.S. Government Printing Office, 1987-88). A table converting unpublished transcript (JHICI) page numbers to published transcript (referred to in the *Iran-Contra Report* as *Hearings* volumes) page numbers is included at the end of volume 1 of this Appendix.

2. Executive Session, JHICI. Refers to sworn hearing testimony of John Poindexter or Oliver North taken in closed session because of the classified nature of the testimony. (These witnesses also testified in sessions open to the public.) The transcripts of the closed sessions were publicly released after classified portions of the testimony were redacted. Citations to Executive Session testimony refer to the unpublished transcripts described in the preceding paragraph. These transcripts are available in the Committees' archives in Washington, D.C.

3. Dep. A sworn deposition taken in the presence of one or more Members of the Committees and/or counsel for the Committees, and counsel for the deponent. These deposition transcripts have been published as Appendix B to the *Iran-Contra Report*.

4. Int. An unsworn interview conducted by one or more Committee Members and/or Committee counsel, with counsel for the interviewee present if the interviewee wished.

5. Ex. An exhibit used during the Iran-Contra Hearings ("JHICI Ex.____") or during a deposition ("[Witness] Dep. Ex.____").

6. PROF Notes. Messages generated on a computer system used by the National Security Council staff.

7. Document letter and number codes. Source and document file codes for materials that have been assigned a Senate letter code and stamped page number. These materials are stored in the Committees' archives in Washington, D.C.

8. Iran-Contra Report. *Report of the Congressional Committees Investigating the Iran-Contra Affair With Supplemental, Minority, and Additional Views* (Washington, D.C.: U.S. Government Printing Office, Nov. 17, 1987).

9. Tower Report. *Report of the President's Special Review Board* (Washington, D.C.: U.S. Government Printing Office, Feb. 26, 1987).

10. HFAC, HPSCI, or SSCI. Testimony or statements made by witnesses before the House Foreign Affairs Committee, the House Permanent Select Committee on Intelligence, or the Senate Select Committee on Intelligence.

11. CRS. A numbered report issued by the Congressional Research Service of the Library of Congress.

Publications of the Senate and House Select Committees

Report of the Congressional Committees Investigating the Iran-Contra Affair, 1 volume, 1987.

Appendix A: *Source Documents*, 2 volumes, 1988.
Appendix B: *Depositions*, 27 volumes, 1988.
Appendix C: *Chronology of Events*, 1 volume, 1988.
Appendix D: *Testimonial Chronology*, 5 volumes, 1988.

All publications of the Select Committees are available from the U.S. Government Printing Office.

Preface

This *Testimonial Chronology* records the events of the Iran-Contra Affair as recounted by the witnesses who testified before the Congressional Committees, and as disclosed in contemporaneous documents that the Committees gathered. It was prepared by the staff of the Senate Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition as an Appendix to the *Report of the Congressional Committees Investigating the Iran-Contra Affair ("Iran-Contra Report")*. Although this *Testimonial Chronology* is published by the Senate Select Committee, it is based on the evidence gathered by the two Select Committees during their joint investigation.

This *Testimonial Chronology* aims to be thorough, without passing judgment or making editorial comment on the evidence it records. It is intended to serve as a research aid, pulling together the myriad events and disparate threads of the Iran-Contra Affair in the words of the participants themselves. Accordingly, where the evidence contains multiple or differing versions of the same events, the various accounts are summarized or quoted. In every instance, the Committee has attempted to provide an accurate, objective and succinct summary of what the witnesses and the documents actually said – and not how the Committees viewed this evidence. The Committees' subjective views and conclusions are set forth in their *Iran-Contra Report*.

This *Testimonial Chronology*, while comprehensive, is not all-inclusive. The two Congressional Committees gathered hundreds of thousands of documents and took numerous depositions, not all of which could be included here. The primary source material for this *Testimonial Chronology* is the testimony of the witnesses who appeared at the Joint Hearings. Deposition testimony also has been included where the deposition transcripts were released prior to the publication of the *Iran-Contra Report*, or where the deposition transcripts discuss events referred to in the *Iran-Contra Report* or in this *Testimonial Chronology*. The documents quoted or cited were introduced as exhibits during the Joint Hearings or otherwise relied upon in the *Iran-Contra Report*.

Transcript text quoted in this *Testimonial Chronology* is edited only by the use of ellipses (. . .) or by material added in brackets where necessary for clarification or completeness. Such editing has been minimal. Likewise, [sic] has been used sparingly, in recognition of the fact that witnesses gave their testimony orally, not in writing. With this in mind, [sic] has been utilized to note that a quotation which might otherwise appear mistaken is recorded accurately here. Also, where a document or testimony has been quoted inaccurately in other testimony, the accurate text is added parenthetically after the [sic].

The Summary Version of this *Testimonial Chronology* serves as an extended Table of Contents for the Long-Form Version. The Summary Version identifies topic headings in the order in which they appear in the Long-Form Version, and notes the specific witnesses whose testimony is included under each topic, as well as the documents quoted or cited.

Chronology entries are designated by nine-digit index numbers in the left margin before each entry. This number gives the date of each event. For example, 85/11/15-100 means November 15, 1985 (or mid-November 1985). The last three digits after the hyphen (100) were solely for computer sorting purposes; they need not detain the reader.

The dates used are those furnished by the witnesses or the documents; however, certain major topics *(e.g.,* the "diversion") are grouped together for convenience.

Before this *Testimonial Chronology* was released, it was submitted by the Senate Select Committee to the White House for review by a Declassification Committee composed of representatives from the various executive departments. This is the same Declassification Committee which functioned throughout the Congressional investigation of the Iran-Contra Affair. The Senate Select Committee expresses its gratitude to the members of the Declassification Committee, and in particular, to Brenda Reger of the NSC staff, for their diligent work in reviewing this *Testimonial Chronology* and helping the Senate Select Committee insure that all critical evidence was disclosed with due regard for considerations of national security and U.S. foreign relations.

This *Testimonial Chronology* is largely the work of Isabel McGinty, Esq., an Assistant Counsel on the Senate Select Committee staff. Ms. McGinty spent enormous hours – including long days, long nights and weekends – throughout the past year to compile this *Testimonial Chronology* and prepare it for publication. Although the task was extremely difficult and painstaking, Ms. McGinty saw it through to completion, long after the *Iran-Contra Report* had been issued and other staff members had departed for their homes. The Senate Select Committee expresses special gratitude to Isabel McGinty for her dedicated service in producing these volumes.

It is the Senate Select Committee's hope that this *Testimonial Chronology* will contribute to the public's understanding of the complex events which made up the Iran-Contra Affair.

SUMMARY VERSION
OF THE TESTIMONIAL CHRONOLOGY

INTRODUCTION

The Summary Version and the index (later in this volume) are companion reference materials to help the reader use the Long-Form Version of the *Testimonial Chronology*. The pages that follow show how entries have been grouped by categories over time. The index, however, enables the reader to locate a name or event in the *Chronology*. The reader can then use that number to find the entry cited in the Long-Form Version, or to scan the Summary Version for related topics and for an overview of events from the same time period.

Cross references in the Summary Version refer to other entries in this document. Because entries have been assigned a group number, the reader should check the cross-referenced entry for a listing of related entries in the Long-Form Version. "See also 86/00/01-005" refers the reader to all the entries grouped below at that number. These cross references are not all-inclusive. The reader should consult the index for a much more complete listing of related topics. This Summary Version collects entries by broadly-related categories. The categories have been further broken down into their smaller components in the index.

The Summary Version functions as an extensive table of contents for the Long-Form Version of the *Testimonial Chronology*. The entry headings used here have been taken from the Long-Form Version and grouped together with other related entries from the same time period in the *Chronology*.

The nine-digit index numbers which precede each entry correspond between the Summary and Long-Form Versions. In this Version, entries have been grouped by topic and assigned one collective entry number. The numbers of individual entries are then noted parenthetically. Where no number is noted parenthetically, the index number in the left margin applies.

The sources cited briefly in the Summary Version include witness testimony at the Iran-Contra Hearings (designated by the witnesses' names), deposition testimony (Dep.), Hearing exhibits (Ex.) and other source documents, the *Iran-Contra* and *Tower Reports*, and other sources. For a full description of the materials used, see the citations at the end of each entry in the Long-Form Version.

Dates of events used here have been determined by a document or the testimony of a witness. Other testimony on the same topic by other witnesses who may not have specified a date accompanies the dated entry. There are many entries in this *Chronology* bearing general dates (e.g., 1985-86) that have been grouped together by topic or event.

Some whole groups of entries lack any certain date other than a year. Testimony on "Diversion" or "The Full-Service Covert Operation," for example, has been listed at the beginning of the 1986 entries, although some of the events described may have occurred much earlier. These indefinitely dated entries bear the index number 86/00/xx-xxx.

Index Numbers

Chronology entries are listed by their 9-digit index numbers, found in the left margin before each entry in the Long-Form and Summary Versions of the *Testimonial Chronology*. This number corresponds to the date of each event. For example, 85/11/15-100 means November 15, 1985 (or Mid-November 1985). The first two numbers give the year (19*85*), the next two the month (11 = November), and the next two the date (15th). The last three digits after the hyphen are a computer sorting device and determine the order in which other entries for the same date are printed in the *Chronology*.

Entries dated generally by a year have no month designation: for example, 86/00/01-000 could mean sometime in 1986, or even 1984-86.

CHRONOLOGY OF THE
JOINT HEARINGS ON THE IRAN-CONTRA INVESTIGATION (JHICI)

SUMMARY VERSION

DATE	GENERAL	CONTRAS	IRAN
/ / - 1		NOTE ON ENTRY NUMBERS Entry numbers are used two ways in this Summary Version: (1) Numbers listed parenthetically after a source name -- e.g., "Poindexter (86/11/25-560, -561, -562, -563)" -- refer to individual entries in the Long-Form Version of the Testimonial Chronology (volumes 2 through 5 of this Appendix). (2) Entry numbers in the Summary Version correspond to those in the Long-Form Version. In this version, however, entries are collected by topic, with one entry number assigned to the whole group. Any number listed as a cross reference and not in parentheses -- e.g., "see also 86/00/01-005" -- refers to the groupings of entries used in this Summary Version.

INDEX
OF THE LONG-FORM VERSION
OF THE TESTIMONIAL CHRONOLOGY

INTRODUCTION

The Summary Version (at the beginning of this volume) and this index are companion reference materials to aid the reader of the Long-Form Version of the *Testimonial Chronology*. The Summary Version sets out how entries are grouped by categories within a certain time period, and the occurrence or recurrence of events over time. The index enables the reader to locate where in the *Chronology* a name or event occurs. The reader can then use that number to find the entry cited in the Long-Form Version, or to scan the Summary Version for related topics and for an overview of events from the same time period.

This index is arranged by topics, names and events, which are listed alphabetically in capital letters as category headings. Three asterisks mark the breaks between index categories. Each category is further broken down into subcategories, for which only the initial letters are capitalized.

When checking an entry cited in this index, browse through the entries preceding and following it. Frequently they are on the same topic. Refer, as well, to the Summary Version for a listing of the surrounding entries.

Chronology entries are listed under multiple categories or subcategories, as determined by their context. Cross references to other categories are also noted. "See NORTH, OLIVER" directs the reader to the capitalized category heading elsewhere in this index; "see North, Oliver" refers to another subcategory under the same category then being consulted. The reader is advised, however, to browse through other categories for a general sense of how this index is arranged.

Brief descriptions are noted in parentheses after some names in this index. These descriptions are intended to provide bare, colorless reference information. Complete job listings for persons named in the *Testimonial Chronology* are not given here. Instead, this index attempts to list their job(s) at the time they are described in the *Chronology*. Information about more current positions is also included, if available. For further descriptive information, consult the entries cited for that category in the Chronology, as well as the Iran-Contra Report.

NOTE: The only persons not listed under their surnames are President Reagan and Vice President Bush. These are alphabetized throughout the index under "President Reagan" and "Vice President Bush."

Index Numbers

Chronology entries are listed by their 9-digit index numbers, found in the left margin before each entry in the Long-Form and Summary Versions of the Testimonial Chronology. This number corresponds to the date of each event. For example, the first index number listed in this index, 85/11/15-100, means November 15, 1985 (or Mid-November 1985). The first two numbers give the year (1985), the next two the month (11 = November), and the next two the date (15th). The last three digits after the hyphen are a computer sorting device and determine the order in which other entries for the same date are printed in the Chronology.

Entries dated generally by a year have no month designation: 86/00/01-000 could mean sometime in 1986, or even 1984-86.

TRANSCRIPT CONVERSION TABLES

Introduction: How to Use These Tables

Citations to transcripts of the Iran-Contra Hearings in the _Testimonial Chronology_ are from the unpublished, loose leaf transcripts issued daily while the Hearings were in progress (cited as McFarlane Testim., JHICI, 5/11/87, at 159). These transcripts are stored with the Committees' documents at the National Archives in Washington, D.C.

During the time that this _Chronology_ was being prepared, the volumes of official transcripts from the Hearings had not yet been published. The following tables were put together from the tentative page proofs of official transcript volumes that were available in November 1987, at the time of publication of the _Iran-Contra Report_. These page proofs were cited in the _Iran-Contra Report_ as McFarlane Test., _Hearings_, 100-2, at 64. These volumes have since been published in a 13-volume set, titled _Iran-Contra Investigation: Joint Hearings Before the Senate Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition and the House Select Committee to Investigate Covert Arms Transactions with Iran_, 100th Cong., 1st Sess. (Washington, D.C.: U.S. Government Printing Office, 1987-88).

These tables show how the pages correspond in the unpublished and the published transcripts. Because the published _Hearings_ volumes are of finer type, about three pages of the unpublished transcripts correspond to one page of the _Hearings_ volumes. The first column of the tables below lists each page of the _Hearings_ volumes. Where the first words on that page occur in the unpublished transcripts is designated in the second column.

Example: To find the page in the published _Hearings_ volume corresponding to McFarlane Testim., JHICI, 5/11/87, at 159, locate the following lines in the tables below under McFarlane testimony for May 11, 1987:

(_Hearings_ vols.)	(Unpublished transcripts)
63	156
64	158
65	161

The unpublished pages listed closest to 159 are 158 and 161. These pages correspond in the _Hearings_ volumes to volume 100-2 at pages 64 and 65. Since page 64 of the published transcript begins on unpublished page 158, and published page 65 begins on unpublished page 161, then unpublished page 159 falls within page 64 of the Hearings volume. The corresponding citation, therefore, would be McFarlane Test., Hearings, 100-2, at 64.

NOTE: The page proofs on which these conversion tables are based may have changed prior to their eventual publication. If these tables do not locate the exact page in the published Hearings volume, they should bring the reader very close to the excerpt of testimony sought. Try the next page. The variations caused by revisions of the transcript page proofs after November 1987 should be very slight.

The first column of the tables below lists pages in the Hearings volumes; the second column gives the pages in the unpublished transcripts (JHICI).
